

useful as a reference source, a lesson back-up and a revision guide.

Written to cover the AQA GCSE Mathematics A modular specification (Unit 3, Foundation), our student book targets the skills and knowledge required for the exam. Functional mathematics is integrated throughout providing an emphasis on applying mathematics in a real-life context.

This textbook meets all the assessment requirements of the AQA specification. It includes differentiated activities, case studies based on real care, and exam-board specific assessment sections to provide guidance and preparation.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Approved by AQA and created specifically for the GCSE Mathematics Foundation tier specification for first teaching from 2015, this Student Book covers the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

Developed by the highly experienced Key Maths author team, the series contains students' books for Foundation, Intermediate I, Intermediate II and Higher. Material builds spirally, allowing students and teachers to revisit concepts and skills and select appropriate teaching and learning programmes. AQA board specific Teacher Files and Question Banks can be used for extra support for this course.

Specifically tailored for the current (2016) AQA GCSE Science (9-1) specifications, this book supports students on their journey from Key Stage 3 and through to success at GCSE. It includes support for the maths and practical requirements. Including clear explanations, detailed worked examples and self-assessment tests, this textbook meets the 2004 AQA specifications and builds on good GCSE practice by emphasising applications and providing coverage of the key concepts.

Exploring Psychology follows the AQA A specification, with the emphasis on teaching students not only the required knowledge and understanding, but to think and act like psychologists too. Designed to add considerable value to students' exam performance, Exploring Psychology is best suited to students of average and above-average ability. It helps provide an ideal grounding for those considering studying Psychology and related subjects at degree level.

Developed for the AQA Specification, revised for the new National Curriculum and the new GCSE specifications. The Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets.
