A very challenging subject IB chemistry requires tremendous effort to understand fully and attain a high grade. 'IB Chemistry Revision Guide' simplifies the content and provides clear explanations for the material.

This revision guide will be a valuable resource and reference for students, assisting them to understand and learn the theory of IB Math HL. The Guide aims to help the IB student by both revising the theory and going through some well-chosen examples of the IB Mathematics HL curriculum. By presenting the theory that every IB student should know before taking any quiz, test or exam, this revision guide is designed to make the topics of IB Maths HL both comprehensible and easy to grasp.

The International Baccalaureate® (IB) was founded in Geneva, Switzerland in 1968 as a non-profit educational foundation that endeavored to develop inquiring, knowledgeable and caring young people who would go on to create a better and more peaceful world through intercultural understanding and respect. What began as a single program for internationally mobile students preparing for college has grown into a series of programs for students up to age 19.

Barron's is pleased to offer a brand new course review and exam preparation guide for the IB Mathematics SL exam. The content of the book is based on the subject guide, published by the International Baccalaureate Organization. It covers all topics required for exams beginning in 2014 and includes: A full-length diagnostic test with markscheme and fully explained answers Study tips and exam strategies Topic review and practice for each strand of the IB Math SL curriculum, including explanations and examples as well as problem sets with fully explained solutions Two full-length practice exams with markschemes and fully explained answers This all-encompassing book can also serve as a supplement to classroom instruction throughout the two-year IB Math SL course, a resource for the Internal Assessment project, and a review resource during first year college math courses.

This is a differentiated course with a systematic and thorough approach suitable for students of all abilities. It was written specifically for standard grade, though is appropriate for other UK Curricula. Chapters begin with looking back exercises for consolidation of the work. The fully differentiated contents have graded exercises. Review sections enable students to
