Lists citations to the National Health Planning Information Center's collection of health planning literature, government reports, and studies from May 1975 to January 1980.

Lists over 750 sources focusing on the reference needs of adults. The primary objective was to select quality reference tools which cover many different topics. Topics include general works, biography, philosophy, religion, language, literature, visual arts, applied sciences, sports and recreation, home life, social customs and education.

A quiet revolution has been sweeping through the writing of nursing history over the last decade, transforming it into a robust and reflective area of scholarship. Nursing History and the Politics of Welfare highlights the significant contribution that researching nursing history has to make in settling a new intellectual and political agenda for nurses. The seventeen international contributors to this book look at nursing from different perspectives, as it has developed under different regimes and ideologies and at different times, in America, Australia, Britain, Germany, India, The Phillipines and South Africa. They highlight the role of politics and gender in understanding nursing history and propose strategies for achieving greater recognition for nursing, and bringing it into line with other related health care professions.
