shows up dead on the roof deck of his floating home. No one seems to know who he is, he has no ID, and there's not a mark on him. If that isn't bad enough, a prospective new client seems to have had one Botox injection too many, his ex-wife wants to take his daughter off to Australia for a year; and someone's leaving mutilated dolls on his front step. And, of course, he's in lust again. No wonder he's feeling a little overexposed.

This study of the written and printed word on the stage of Shakespeare and his contemporaries begins by considering the significance of writing and printing in Renaissance culture. Winner of the University of Delaware Press Shakespeare Studies Award, it focuses on the work of Erasmus and Luther, who shaped attitudes toward the written word, encouraged the growth of literacy, fostered the founding of schools, and invested the written and printed word with a new and enhanced status. It also treats the invention of the printing press and the steady infiltration of books into people's lives,

from their place of work to their place of worship. Author Frederick Kiefer goes on to examine the English accommodation of the forces that Erasmus and Luther helped set in motion, particularly the implications for the theater. Within a culture in which writing and printing were achieving unprecedented ascendancy, English playwrights used books, letters, and documents as props. Written materials and printed books became important to the dramatization of religious controversy, social conflict, and spiritual psychomachia. Playwrights also made extraordinary use of metaphors involving the written and printed word to describe the workings of the mind and the interaction of people. As people turned increasingly to the written and printed word for instruction and inspiration, they spoke of their lives in language generated by the print shop, library, and study. Conceiving of their experience in terms of writing and printing, they employed metaphoric books when they envisioned abstractions. They spoke, for example, of the books of conscience, nature, and fate. Such metaphors allowed people to organize conceptually the diversity and unruliness' of everyday life. Metaphoric books are the focus of this study's final section. Particular attention is given to the book of conscience in Thomas Heywood's *A Woman Killed with Kindness* and George Chapman's *Bussy D'Ambois*; the book of nature in Shakespeare's *As You Like It* and *Pericles*; and the book of fate in Thomas Kyd's *The Spanish Tragedy* and John Webster's *The Duchess of Malfi*.

chronicle the odyssey and ultimate exile of Jewish Iraqis, documenting how Jewish citizens in Baghdad deteriorated from the region's largest and most prosperous ethnic group to a band of a few dozen survivors under the oppression of a hostile Iraqi government. Sarah Easterby-Smith rewrites the histories of botany and horticulture from the perspectives of plant merchants who sold botanical specimens in the decades around 1800. These merchants were not professional botanists, nor were they the social equals of refined amateurs of botany. Nevertheless, they participated in Enlightenment scholarly networks, acting as intermediaries who communicated information and specimens. Thanks to their practical expertise, they also became sources of new knowledge in their own right.

Cultivating Commerce argues that these merchants made essential contributions to botanical history, although their relatively humble status means that their contributions have received little sustained attention to date. Exploring how the expert nurseryman emerged as a new social figure in Britain and France, and examining what happened to the elitist, masculine culture of amateur botany when confronted by expanding public participation, Easterby-Smith sheds fresh light on the evolution of transnational Enlightenment networks during the Age of Revolutions.

On Raftery's Hill 'This is a play that howls to be seen; its courage is matched only by its dramatic power.' Sunday Independent Ariel 'An astonishing piece of theatre. Interweaving themes drawn from Irish, Greek and biblical myth, she spins a tale of power that is honest, emotional, dark and true . . . Die to see it.' Irish Examiner Woman and Scarecrow 'Drama doesn't come much richer or stranger than this death-bed lament. Ravishing in its dense, literary language, it is as visceral as it is intellectual. It lingers not only in the ear and brain, but in the imagination and the gut. An extraordinary brew, bittersweet and totally intoxicating.' The Times The Cordelia Dream 'A brave piece and clearly charged with deep feeling. . . This is certainly unsettling territory and Carr boldly goes for it.' Financial Times Marble 'An extraordinary play that lures us in with a promise of the recognisable only to drag us screaming into the soaring, magnificent possibilities of love and the destruction that it wreaks.'
